EPIX™ (GEN 2) Premium Active Smartwatch

NEW PRODUCT ANNOUNCEMENT

PRODUCT OVERVIEW:

Wear epix™, be epic. With epix, the premium active smartwatch, you can take on every day with the stunning AMOLED display optional Sapphire lens with titanium bezel and up to 16 days of battery life. Stay connected with smart features, Garmin Pay™ contactless payments[1] and music storage. Understand your body with 24/7 health and wellness monitoring features that track Pulse Ox[2], heart rate[3], respiration and more. Train how you want with 30+ built-in sports apps and take it further with performance metrics and Garmin Coach training plans. When you're ready for adventure, you can download TopoActive mapping via Wi-Fi® connectivity, or get it preloaded on Sapphire Editions.

EPIX™ (GEN 2) Premium Active Smartwatch

NEW PRODUCT ANNOUNCEMENT

KEY FEATURES:

NEW	DESIGNED FOR YOUR LIFESTYLE	The stunning 1.3" always-on AMOLED display brings your watch to life, even under bright sunlight.
NEW	TOUCHSCREEN AND BUTTONS	Trusted button controls that work in any environment are matched with a responsive new touchscreen interface for quick access to selections and map features.
NEW	HIIT WORKOUTS	Use this activity profile with different timers to track your HIIT workouts, including AMRAP, EMOM, Tabata and custom. Set the number of rounds, work/rest intervals and more.
NEW	VIRTUAL RACE PREDICTOR	Based on your running history and overall fitness level, this feature provides an estimate of what your pace could be for the distance you want to run. Trend data shows how your training is having an impact over time.
NEW	REAL-TIME STAMINA	Track and manage your exertion — and help avoid overexerting at the start of your run or activity.
NEW	MULTI-BAND FREQUENCY SUPPORT	With the Sapphire edition, get superior accuracy using technology previously only available to the military. Access multiple frequencies sent by navigation satellites for improved position accuracy in areas where GNSS signals are reflected, weak or typically don't penetrate.
NEW	MULTI-CONTINENT TOPO MAPS	Download TopoActive maps via Wi-Fi® connectivity from around the world — or get your local region preloaded on the Sapphire edition watches — to keep your explorations on track. View terrain contours, elevations, summits, parks, coastlines, rivers, lakes, and other geographical features.
NEW	UP AHEAD	Get at-a-glance awareness for selected POI checkpoints ahead. View performance metrics, split times and distance/elevation — plus a summary of key trail points coming up.
NEW	SKIVIEW™ MAPS	Take on the slopes with preloaded SkiView maps, and view run names and difficulty ratings for more than 2,000 ski resorts worldwide.
	GREAT BATTERY	For an outstanding smart watch experience with our new AMOLED screen we have created a super-efficient power mode. This wakes the watch up based on a smooth gesture interaction and extends the battery life in smart watch mode up to 16 days.
	PREMIUM MATERIALS	Fit the watch's look to your lifestyle with options for a sapphire display, titanium bezel or stainless steel bezel.
	PULSE OX	For altitude acclimation or sleep monitoring, a Pulse Ox sensor[2] uses light beams at your wrist to estimate how well your body is absorbing oxygen.
	WRIST-BASED HEART RATE	The watch constantly samples your heart rate[3] and will alert you if it stays too high or too low while you're at rest. It also helps gauge how hard you work during activities — even while swimming.
	RESPIRATION TRACKING	See how you're breathing throughout the day, during sleep and during breathwork and yoga activities.
	STRESS TRACKING	Heart rate variability is used to calculate your stress level score, so you can see if you're having a calm, balanced or stressful day.
	SLEEP SCORE AND ADVANCED SLEEP MONITORING	Get a full breakdown of your light, deep and REM sleep stages. View it all on a dedicated widget that includes your sleep score and insights.
	BODY BATTERY™ ENERGY MONITORING	Optimize your body's energy reserves, using heart rate variability, stress, sleep and other data to gauge when you're ready to be active or when you may need to rest.
	HYDRATION TRACKING	Log your daily fluid intake as a reminder to stay hydrated. You can even have an auto goal for hydration that adjusts based on how much you sweat during activities.
	BUILT-IN SPORTS APPS	Use preloaded activity profiles for trail running, swimming, running, biking, hiking, rowing, skiing, golfing, surfing, indoor climbing and more.
	ANIMATED WORKOUTS	This watch features easy-to-follow, animated cardio, strength, yoga and Pilates workouts you can view on the watch screen. Choose from preloaded animated workouts, or download more from the Garmin Connect™ online community when paired with your compatible device.
	GARMIN COACH	These free adaptive training plans feature guidance from expert coaches and adapt to you and your goals. Workouts sync right to your watch from Garmin Connect.
	PACEPRO™ TECHNOLOGY	A first-of-its-kind PacePro feature helps keep you on pace with grade-adjusted guidance as you run a course. You have the option to quickly modify your PacePro plan if changing conditions warrant a change in strategy.

NOTE: Features not available in all models.

GARMIN

KEY FEATURES (CONTINUED):

VO2 MAX	Train smarter with VO2 max, an indicator of how you can expect to perform. It adjusts for trail running and accounts for changes in performance that could be caused by heat or altitude.
PERFORMANCE METRICS	View advanced training metrics that include estimates for running dynamics, VO2 max, recovery advisor and more.
DAILY WORKOUT SUGGESTIONS	For training guidance that takes you and your fitness level into account, get daily run and ride recommendations based on your current training load and training status.
RECOVERY TIME ADVISOR	After each workout, recovery time lets you know when you'll be ready for another hard workout. It even accounts for training intensity and factors such as stress, daily activity, and sleep.
MTB DYNAMICS	Track the details of every ride with mountain biking metrics plus specialized Grit™ and Flow™ measurements that rate trail difficulty and how smoothly you descend, giving you a score to beat next time.
BACKCOUNTRY SKI	Stay informed when you're in the snow. This preloaded profile can distinguish between skiing and climbing. It automatically shows metrics specific to either ascent or descent.
XC SKI DYNAMICS	When paired with the HRM-Pro™ chest strap (sold separately), the ski power metric helps measure the actual exercise load of your cross-country workouts.
SURF-READY FEATURES	This watch works with the Surfline® widget to give you tides, wave height, wind and surf rating for the five nearest locations and also works with the Surfline Sessions™ app to create videos of every wave you ride in front of a Surfline camera.
MULTI-GNSS SUPPORT	Access multiple global navigation satellite systems (GPS, GLONASS and Galileo) to track in more challenging environments than GPS alone.
ABC SENSORS	Navigate your next trail with ABC sensors, including an altimeter for elevation data, barometer to monitor weather and 3-axis electronic compass.
ACCLIMATION	This widget shows your current elevation, acclimated elevation, and correlated Pulse Ox[2], heart rate[3] and respiration rate, so you can see how you're holding up to the current elevation.
CLIMBPRO FEATURE	Use the ClimbPro ascent planner to see real-time information on your current and upcoming climbs, including gradient, distance, and elevation gain — as well as descents and flats.
GOLF COURSE MAPS	Access full-colour CourseView maps for more than 42,000 golf courses around the world and get touch targeting and the PlaysLike Distance feature.
ROUND-TRIP ROUTING	Enter a distance you want to travel and get suggested routes that will bring you back to your starting point. Trendline™ popularity routing helps you find the best local paths.
TURN-BY-TURN NAVIGATION	Follow a route or course with help from turn-by-turn directions, which let you know ahead of time when the next turn is coming.
SMART NOTIFICATIONS	Receive emails, texts and alerts right on your watch when paired with your compatible smartphone.
MUSIC APPS	Download songs plus playlists from your Spotify, Deezer or Amazon Music accounts (subscription may be required). Use your wireless headphones for phone-free listening.
GARMIN PAY™ CONTACTLESS PAYMENTS	Breeze through checkout lines with Garmin Pay contactless payments through participating providers.
SAFETY AND TRACKING FEATURES	If you feel unsafe or if your watch senses that an incident occurred, assistance and incident detection features[4] can send a message with your location to emergency contacts when paired with your compatible smartphone.
CONNECT IQ™ STORE	Download custom watch faces, add data fields, and get apps and widgets from the Connect IQ Store when paired with your compatible device.
POWER MANAGER	View how various settings and sensors impact your watch's battery life, so you can make battery-extending changes on the fly.
