

HELMET LINE

Not everybody who wears a helmet feels the need to race down a slope with 140 km/h, or to drop a 20 meter cliff - like our athletes do. Our range is designed to meet the requirements of professional athletes as well as the demands of a relaxed day on the slopes. From skiing to snowboarding, from big mountain to all mountain, from professional to beginner - we got you covered!

RACE

Developed together with and trusted by many of the world's best alpine racers - the Worldcup Rebels. This helmet line caters to the specific demands of competitive racing - strong, durable, aerodynamic and incredibly safe. WE MAKE THE EQUIPMENT. YOU MAKE HISTORY.

KEY FACTS

- > lightweight products
- > aerodynamic design
- > for all alpine race disciplines

RADAR & RACHEL

Award-winning helmet with a fully integrated visor that combines the benefits of wearing a goggle with that of having a visor helmet. Lenses can be exchanged in seconds and are available in several configurations, including our new contrast-enhancing SK Lens Technology.

KEY FACTS

- > revolutionary design
- > Integrated Visor System
- > patented Sphere Fit system with BOA®

NEW

- > MIPS version available
- > multiple design options

REV & RITA

Innovative helmet line, which sets a new standard in comfort, ventilation and fit. All models feature the patented Sphere Fit system with BOA®, as well as an Adjustable Ventilation - making this platform perfect for on- and off-piste.

KEY FACTS

- > revolutionary design
- > Adjustable Ventilation
- > patented Sphere Fit system with BOA®

NEW

- > multiple design options

KNIGHT & QUEEN

These sporty, all-conditions visor helmets allow a winter sports enthusiast to do away with goggles and wear prescription glasses if needed. Superlative venting, a customizable fit, and plenty of warmth and comfort characterize these visors. Lenses can be exchanged to adapt to changing weather conditions.

KEY FACTS

- > lightweight In-Mold construction
- > toolfree visor exchange
- > spare visors available in multiple lens option

COMPACT PRO & COMPACT

The new COMPACT helmet line is focusing on the essentials of a winter sports helmet: great look, perfect fit, and - most importantly - supreme protection. A perfect fit is guaranteed thanks to our patented Sphere Fit system.

KEY FACTS

- > highly durable
- > slim profile
- > patented Sphere Fit system

NEW

- > MIPS version available

V-SERIES

The V-SERIES is all about maximum safety and a perfect helmet climate. The ventilation system uses the Venturi Effect, creating the perfect, fog-free climate for both helmets and goggles. The lightweight construction together with a comfortable lining will let you forget you are wearing a helmet.

KEY FACTS

- > lightweight In-Mold construction
- > supreme ventilation with Venturi Effect
- > comfortable interior

JUNIOR

Our junior helmets are packed with the features, style, and protection of HEAD's adult line, optimized for small heads. A fit system, together with a soft lining and Removable Earpads provide supreme comfort and added wearability for growing kids. The Thermal Ventilation gives kids a comfortable, more confident experience so that staying safe on the hill becomes instinctive.

KEY FACTS

- > kid specific sizes
- > lightweight and durable construction
- > visor options available

NEW

- > matt finish
- > new visor options with mirror coating
- > packages with goggles available

PERFECT MATCH

Everybody has an individual demand in terms of product, performance and fit - a perfectly matching helmet and goggle combination is essential to maximize safety, function and style on slopes. Here is our guide to your perfect combo.

R-SERIES & MAGNIFY

This is the lighthouse combo in terms of function and bold design. The MAGNIFY perfectly integrates in the shape of the R-SERIES helmet line while also combining the ventilation system of both items.

323652 REV nightblue
390822 MAGNIFY 5K chrome/SHAPE 390721 MAGNIFY 5K blue/orange
323601 REV MIPS black
390811 MAGNIFY 5K blue/NORE
323711 RITA white
390711 MAGNIFY 5K gold/white

R-SERIES & CONTEX

A very modern product combination, offering a supreme field of vision and supreme ventilation properties. Two available sizes of the CONTEX make it easier than ever to find your individual perfect match.

323622 REV nightgreen
392511 CONTEX PRO 5K gold/black
323641 REV WER
392422 CONTEX PHOTO WCR

COMPACT & CONTEX

Both the COMPACT helmet platform and the CONTEX goggle platform were developed together, to assure perfect integration and unrestricted field of vision. All models of those platforms match each other perfectly, further supported by multiple sizes that can be chosen from.

326301 COMPACT PRO black
392611 CONTEX PRO 5K red/NORE
326401 COMPACT PRO white
392821 CONTEX silver/turquoise
326462 COMPACT MIPS black
392622 CONTEX PRO 5K blue/SHAPE
326751 COMPACT dusky rose
392531 CONTEX PRO 5K chrome/grey

COMPACT & F-LYT

A very lightweight and affordable product combination, which does not need to hide itself in terms of look and functionality. Both items are offered in different sizes, assuring a slim and integrated look for all demands.

326512 COMPACT black
394332 F-LYT green/black
326501 COMPACT anthracite
394342 F-LYT blue/black

V-SERIES & HORIZON 2.0

Two evergreens and bestsellers in our product line, which make for a perfect match. The reduced, modern design of both items offers a timeless look for all areas of use.

324320 VARIUS black
391221 HORIZON 2.0 5K blue/black
325320 VANDA white
391211 HORIZON 2.0 5K gold/white

V-SERIES & F-LYT

The lightest combination in our line, for situations where every gram matters. Multiple sizes are available for both helmet and goggle to achieve a 100% product integration and optimized closing against wind, water and snow.

324510 VICO anthracite
394352 F-LYT lime/black
325711 VALERY black
394322 F-LYT red/black

TAYLOR & STREAM

A great junior package, with extraordinary durability. The protective goggle frame integrates perfectly in the helmet and limits the exposure to external hazards.

328212 TAYLOR blue
395242 STREAM FMR red/black
328222 TAYLOR pink
395232 STREAM FMR red/purple

MOJO & NINJA

The recommended combo for the smallest on the slopes. Lightweight, functional and easy to use make this product combination perfect for aspiring youngsters.

328632 MOJO razzle
395410 NINJA red/black
328722 MAJA white
395430 NINJA red/pink

HELMET TECHNOLOGY

HARDSHELL TECHNOLOGY

This helmet technology is outstanding in longevity and impact protection. For this reason we use it in our race and rental helmets.

CONSTRUCTION

DUAL DENSITY CORE

This patented core technology is made from EPS with dual densities. This increases the helmets performance so it passes the FIS RH 2013 standard.

TOOLFREE CHINGUARD

The angle of our all-new Toolfree Chinguard can be adjusted individually, without using any tools. The chinguard can also be taken off, when not needed for training, or racing gates.

360° MICROSHELL

The 360° Microshell is a polycarbonate layer, which three-dimensionally wraps around the lower helmet lip, that prevents scratches and dents in the helmet's foam.

MICROSHELL

The Microshell is a polycarbonate layer that prevents scratches and dents in the foam.

MIPS

The MIPS Brain Protection System is a helmet-integrated, low-friction layer designed to reduce rotational motion transferred to the brain from angled impacts to the head.

VENTILATION

ADJUSTABLE VENTILATION

The opening of the ventilation ducts on the top of the helmet may be adjusted continuously by means of a slide control.

THERMAL VENTILATION

Thermal Ventilation is our automatic ventilation system which leads warm air away from the head to the outside without allowing any cold air to the inside.

ACTIVE BOTTOM EDGE

An Active Bottom Edge in HEAD helmets reduces goggle fogging by delivering active airflow. It does this by allowing air to be drawn from the goggles through the helmet.

IN-MOLD TECHNOLOGY

The shock absorbing inner EPS layer of this technology is injected into the hard outer polycarbonate layer to create a single comprehensive unit that provides perfect protection at a reduced weight.

VENTURI EFFECT

The Venturi Effect creates the ideal inner helmet climate. It does so when air passing over the helmet draws out heat and moisture from the helmets inside.

LINING

MICROFUR

Microfur is both warming and comfortable on the skin. As a helmet lining it creates the perfect fit and feel for all-day shredding.

MICROFLEECE

The soft microfleece material has several functions: It feels good, draws moisture from the skin and transports it away from the head.

BEANIE LINER

The soft microfleece material of the Beanie Liner adapts perfectly to the head and thus avoids any bruises and the unpleasant entering of cold air. Molded-in mesh zones let heat and moisture escape to the outside and, together with the ventilation system, ensure a pleasant head climate.

COMFORT ZONE LINER

Soft liner pads provide perfect fit & comfort at a fraction of the weight.

KID SPECIFIC LINER

This lining is specifically designed for kids, fully covered with soft microfleece, providing perfect fit & comfort at a fraction of the weight.

EARPADS & FITTING

NECKGATOR

The Neckgator provides comfort and warmth to the helmet wearer. It adds comfort, fit and excludes the elements.

REMOVABLE EARPADS/NECKGATOR

These ear pads and / or neckgator can be removed to suit the variable weather conditions and for cleaning.

VISOR CONSTRUCTION

HEAD's Visor Construction is a wind-sealed UV protective shield that allows skiers to ride wearing prescription glasses. Like on a motorcycle helmet the visor can be pulled down to protect the eyes while riding.

CHANGEABLE ADAPTER PLATES

Use the flat adapter plates with optimized acoustics for speed disciplines, the chin guard adapter for slalom disciplines.

SPHERE FIT

The patented Sphere Fit system wraps around the head like a beanie. When adjusting the BOA® dial, it is adjusted in all three dimensions, creating a snug and comfortable fit without applying any pressure.

SPHERE FIT AUTO

The patented Sphere Fit Auto system wraps around the head like a beanie, creating a snug and comfortable fit without applying any pressure. Using an elastic band, the fit is adapted automatically but can be adjusted by using the click system in the back of the helmet.

360° BOA® FIT

The 360° Fit System by BOA® evenly adjusts the fit of the helmet to all head shapes

HEAD 3D FIT

HEAD 3D Fit allows an exact horizontal as well as vertical adjustment of the helmet to the shape of your head.

HEAD 2D FIT

The size adjustment system may be varied horizontally in order to individually adjust the helmet to your head.

METAL CHINSTRAP BUCKLE

The Metal Chinstrap Buckle is both durable and tactile. Made from metal it also adds to the look of a HEAD helmet.

FIDLOCK BUCKLE

The magnets of this buckle close automatically and can be opened easily and conveniently by sliding the buckle laterally with just one hand. Even with gloves on, opening and closing the helmet will only take a moment.

CERTIFICATION

EN 1077:2007 CLASS B

EN 1077 is the European standard for ski & snowboard helmets, taking into account the results of collision tests to ascertain dampening and puncture resistant qualities of the outer shell. Class B of this certificate certifies helmets with soft ear protectors.

EN 1077:2007 CLASS A

The certification procedure for Class A is used for racing helmets with hard ear protectors, requiring high standards of puncture resistance.

ASTM F 2040

The North American equivalent to the European CE-Test uses comparable methods.

FIS RH 2013

These helmets comply with FIS GS/SG/DH helmet regulations.

VISORS & LENSES

INTEGRATED VISOR SYSTEM

The innovative combination of a visor helmet with the advantages of wearing a goggle are integrated into a product which is outstanding in terms of fit, style and performance. The visor automatically adapts to the wearers face and seals off wind and water.

DOUBLE LENS VISOR

The Double Lens Visor is ventilated, which prevents the lens from fogging. It provides 100% UV protection. Therefore, it is the ideal solution for mountain sports.

RAPID LENS EXCHANGE SYSTEM

Lenes can be swapped on the go with only a click. Adapt yourself to changing weather in no time!

PHOTOCHROMIC LENS

This lens automatically adapts its lens tone between category S1 to S3, depending on the weather condition. The lens is toned down in bright, sunny conditions and allows more light to enter the eyes in cloudy, overcast weather conditions.

5K LENS

5K enhances contrast and boosts color brilliance by filtering specific wave lengths of the visual spectrum, therefore revealing more details and assuring a safer, less tiring on-snow experience in any weather condition.

POLARIZED LENS

Polarized lenses are laminated with tiny vertical stripes that only allow vertically angled light to enter the wearer's eyes. This is resulting in increased color and contrast perception, increased attention and reduces tiring.

S3

Bright and sunny conditions require a dimming lens tone.

S2

Versatile lens for changeable weather conditions.

S1

For cloudy or snowy days on the mountain.
